

Cephoral (DMF Grade)

1. Why a doctor's should prescribe Cephoral instead of other cefixime (Cef-3, Denver, Orcef, Cefim-3)?

Ans:Our Cephoral is DMF Grade so it is more risk free than conventional Cefixime due to contain minimum impurity.

2. Why a doctor's should prescribe Cephoral instead of Cefradin (Lebac) / Cefuroxim (Furocef, Cefotil, Kilbac)?

Ans:A doctor should prescribe our cephoral instead of cefradin / Cefuroxime because :

- Provides best coverage on gram negative bacteria
- Most effective antibiotic for RTI, UTI & Typhoid Fever
- Resistance free
- Suspension ensure highest concentration of drug in blood
- Best palatable (tasty to intake) oral antibiotic
- Most suitable antibiotic for switch therapy.

3. Why a doctor's should prescribe Cephoral instead of Azithromycin (Zimax, Zithrin, Rozith) / Ciprofloxacin (Ciprocin, Neufloxin, Cipro-A)?

Ans:Doctors prescribe Cephoral because :

- Outstanding Bacterial coverage
- Bactericidal in action
- Resistance free
- Suspension ensure highest concentration of drug in blood
- Best palatable (tasty to intake) oral antibiotics.
- Doesn't Causes articular damage in children.
