

Ketolab (DMF Grade)

***** Why a doctor should prescribe Ketolab instead of other Ketorolac Brands (Rolac (RTA)/Torax (SQA)/Todol (OPL)?**

Ans:

Our Ketolab is DMF grade Ketorolac so Ketolab is more risk free than conventional Ketorolac due to contain minimum impurity.

***** Why a doctor should prescribe Ketolab Injection instead of Diclofenac Injection?**

Ans:

- Ketolab is as safe as Diclofenac but the analgesic potency of Ketolab is about 5 times more than that of Diclofenac
- Less injection site pain than Diclofenac

***** Why a doctor should prescribe Ketolab instead of Other NSAIDs?**

Ans:

- Ketolab, 6 times more potent than Indomethacin
- Ketolab, 350 times more potent than Aspirin
- Ketolab, 50 times more potent than Naproxen
- Only Ketorolac is **100%** Bioavailable in all dosage form
