

<h2><strong>Ketolab (DMF Grade)</strong></h2>

<p><strong>\*\*\* Why a doctor should prescribe Ketolab instead of other Ketorolac Brands (Rolac (RTA)/Torax (SQA)/Tadol (OPL)? </strong></p>

<p><strong>Ans:</strong></p>

<p>Our Ketolab is DMF grade Ketorolac so Ketolab is more risk free than conventional Ketorolac due to contain minimum impurity.</p>

<p><strong>\*\*\* Why a doctor should prescribe Ketolab Injection instead of Diclofenac Injection? </strong></p>

<p><strong>Ans:</strong></p>

<ul>  
<li>&nbsp;Ketolab is as safe as Diclofenac but the analgesic potency of Ketolab is about 5 times more than that of Diclofenac</li>  
<li>Less injection site pain than Diclofenac</li>  
</ul>

<p><strong>\*\*\* Why a doctor should prescribe Ketolab instead of Other NSAIDs? </strong></p>

<p><strong>Ans:</strong></p>

<ul>  
<li>Ketolab, 6 times more potent than Indomethacin</li>  
<li>Ketolab, 350 times more potent than Aspirin</li>  
<li>Ketolab, 50 times more potent than Naproxen</li>  
<li>Only Ketorolac is <strong>100% </strong>Bioavailable in all dosage form</li>  
</ul>
